

We Need FOOD!!!!

The mission of *Aurora Warms the Night* is to preserve the life, health and stability of Auroras men, women and children facing homelessness. Our work is possible through the generosity and support of our community.

When the weather forecast is for 20 degrees or colder, we provide food and shelter to families with children and individuals in need. This winter we have already provided over 400 food kits, along with vouchers for hotels in Aurora.

We are sending out this request for contributions as our food banks are very low.

Please look at the list below of items we need.

Donations of full or partial kits are very much appreciated!

Completed food kits or supplies to make food kits may be dropped off Mondays or

Tuesdays from 9-12, or email Amanda to arrange a different time;
